CAREER OBJECTIVE

Computer Science undergraduate with a strong foundation in Java, OOP, and Data Structures, seeking a Software Engineer / Developer internship or entry-level role to apply programming skills to real-world projects. Eager to learn new technologies and grow through hands-on, real-world experience.

EDUCATION

Srinivasa Ramanujan Institute of Technology - Anantapur 2023 - Passing
Bachelor of Technology in Computer Science and Engineering — CGPA: 8.54

Narayana Junior College - Nellore 2021 - 2023
Intermediate (Maths, Physics, Chemistry) — CGPA: 9.74

Gowtham EM School - Kadapa 2021
Secondary School Certificate (SSC) — CGPA: 10.0

PROJECTS

Ready2Interview — Web-Based Programming Learning Platform

Tech Stack: HTML, CSS, JavaScript, Java, SQL

- Built a full-stack web platform that teaches C, C++, Java, HTML, CSS, JavaScript, R, and React.js to students preparing for technical interviews.
- Designed and implemented the responsive front end using HTML, CSS, and JavaScript.
- Developed backend functionality in Java with SQL database integration for persistent data storage.

StudentVault — Secure Student Management Portal

Tech Stack: Java, JSP, Servlets, JDBC, MySQL, Apache Tomcat

- Built a full-stack student management portal with secure authentication and role-based access control for admins and students.
- Implemented session management and CRUD operations to handle student records efficiently.
- Designed separate, role-specific dashboards enabling admins and students to manage profiles and academic information independently.

TECHNICAL SKILLS

Programming Languages: Java, C

Web Technologies: HTML, CSS, JavaScript, React.js, REST APIs, JSON

Core Concepts: Object-Oriented Programming (OOP) Concepts, Data Structures and Algorithms

Databases: SQL

Tools & Version Control: Git, GitHub, VS Code, Postman

Soft Skills: Problem solving skills and collaborating with team members

CERTIFICATIONS

- Certified in C Programming by NPTEL — covered functions, arrays, strings, and pointers.
- Certified in Fundamentals of Java by Infosys Springboard — covered OOP, exception handling, basics of multithreading, and collections.

LEARNING AND ETHICS

- Continuously learning through hands-on practice: solved 150+ problems on LeetCode and other coding platforms.
- Actively participate in hackathons, collaborating in teams to design and build projects under time constraints.
- Committed to academic integrity and honesty: write original code, credit sources, and respect team members' contributions.
- Value responsible software practices, including protecting user data and building secure, reliable applications.
